LinkedIn: <https://www.linkedin.com/in/tanya-yadav-6728a227b/>

PROFESSIONAL SUMMARY

Motivated and detail-oriented B.Tech IT student with strong fundamentals in computer science, programming, and networking. Skilled in Java, database management, and cybersecurity concepts. Passionate about problem-solving and eager to contribute to real-world projects through internships and collaborative opportunities. Looking forward to applying technical knowledge, analytical thinking, and teamwork skills to deliver value while continuously learning and growing with the organization.

KEY EXPERTISE

Java | SQL | DBMS | Computer Networks | Linux | DSA | OOP | Web Dev | Git/GitHub | Cybersecurity | Problem Solving

EDUCATION

DIT University, Dehradun

B.Tech. - Information Technology | CGPA: **7.22 / 10**

2022 - 2026

SMT RAMARATI DEVI SR SEC SCH LALITPURA MAU

12th | CBSE | Percentage: **65.40 / 100**

2020

Kendriya Vidyalaya Mau

10th | CBSE | Percentage: **67.80 / 100**

2018

PROJECTS

LLM Powered medical diagnosis system with RAG integration

06 Jan, 2026 - 18 May, 2026

Team Size: 3

Key Skills: React.js, Node.js, Express.js, RAG, LLMs, Gemini API, SQLite, REST APIs, 2FA, Cybersecurity, Full-Stack Development.

Developed CareAI, an AI-powered healthcare assistant that uses Retrieval-Augmented Generation (RAG) and Large Language Models (LLMs) to provide symptom analysis, lab report summarization, and emergency red-flag detection. Built a secure full-stack web application using React, Node.js, Express, and SQLite with features such as 2FA authentication, session management, CSRF protection, and AI-driven clinical support, ensuring reliable and secure healthcare assistance.

ASSESSMENTS / CERTIFICATIONS

Basics of Cisco Networking

Provider: LearnQuest

Key Skills: IP Addressing, Subnetting, Routing & Switching, VLANs, TCP/IP, Cisco CLI, Packet Tracer, Troubleshooting

The Cisco Networking Basics certification provides foundational knowledge of networking concepts, including IP addressing, subnetting, routing, and switching. It covers VLAN configuration, TCP/IP protocols, and hands-on experience with Cisco devices through CLI and Packet Tracer. The certification equips learners with practical skills in network setup, configuration, and troubleshooting, preparing them for real-world networking tasks and advanced Cisco certifications.

Introduction to Java Enterprise Edition (EE)

Provider: LearnQuest

Key Skills: Servlets, JSP, JDBC, Enterprise Apps, Multi-tier Architecture, Deployment, Security

The Introduction to Java Enterprise Edition (EE) certification provides foundational knowledge of enterprise-level Java programming. It covers Servlets, JSP, JDBC, and web application development, along with concepts of multi-tier architecture, dependency injection, and deployment on application servers. This certification validates skills in building scalable, secure, and platform-independent enterprise applications.

Introduction to Relational Databases (RDBMS)

Provider: IBM

Key Skills: SQL, Data Modeling, Normalization, Joins, Keys & Constraints, Transactions, Query Optimization

The Introduction to Relational Databases (RDBMS) certification covers core concepts of database management, including tables, schemas, primary and foreign keys, normalization, and relationships. It provides hands-on skills in SQL for data querying, manipulation, and transactions, ensuring a strong foundation in designing and managing relational databases effectively.

Command Line Basics in Linux

Provider: Coursera Guided Projects

Key Skills: Shell Commands, File Management, Permissions, Processes, Package Management, Text Processing

The Command Line Basics in Linux certification introduces fundamental Linux shell commands and navigation. It covers file system management, permissions, process handling, package management, and text processing tools like grep, cat, and nano. Learners gain practical skills to manage files, directories, and system tasks efficiently using the Linux terminal.

Introduction to HTML, CSS, & JavaScript

Provider: IBM

Key Skills: HTML5, CSS3, JavaScript Basics, Responsive Design, DOM Manipulation, Web Page Styling, Interactivity

The Introduction to HTML, CSS & JavaScript certification covers the core building blocks of web development. It introduces HTML for structuring content, CSS for styling and layout, and JavaScript for interactivity and dynamic behavior. Learners gain hands-on experience in creating responsive, user-friendly web pages and develop a foundation for front-end development.

Cybersecurity Tools and Technologies

Provider: IBM

Key Skills: Network Security, Threat Analysis, Firewalls, IDS/IPS, Antivirus, Vulnerability Assessment, Cyber Threat Mitigation

The Cybersecurity Tools and Technologies certification introduces foundational concepts in cybersecurity, including threat analysis, network security, and common security tools. It covers firewalls, antivirus software, intrusion detection systems, and vulnerability assessment tools. Learners gain practical skills in identifying, mitigating, and managing cyber threats to protect systems and data effectively.

CO-CURRICULAR ACTIVITIES

- Teamwork | Leadership | Creativity | Communication | Problem-Solving | Social Responsibility

PERSONAL INTERESTS / HOBBIES

- Problem-solving on coding platforms, reading tech and cybersecurity trends, blogging about concepts, open-source contributions, sketching, traveling, and fitness activities.
